#### SPECIMENES DE MESO.

Leksikon de L. I. musti habir sat numbro de radikes por klarita de ekspresio, et komprendio, ma om gardez se kontra paroles ultrasat. Von sonios, ulhom intelektoz poti lernir bentoste produktir ul-sono de ul de te grand lingus literatural. Tamen om evadi sonios most ardu--eks. : th. Basi de lingu international devi estir sintesi rational de grand lingus literatural kwe esti disspergat inter mond.

**RICHARD H. GEOGHEGAN.**

Esperanto esti te uniem form praktikibil de sintesi inter-lingual novolatin, et esti model imitabil por L.I. Von sens futur de verbes eske om devi adoptir paroles selfstand kwa en te lingus anglo-german per lesyo "shall," "werden," etc., od eske om devi adoptir final sufikses, kwa en lingus romanik, per lesyo "aba,-ez-arez," etc. Segun nosyo norm fundamental nos musti adoptir sufikses sintesimal de form novolatin, pro uniformita, logikal et intrinsek [si am-ir, konsekui am-a, ne: fe amir; pro ordinio de pensio.]

## POST POLAL.

Ti Kristopask una epistol od parsel adresadat Herschel Island, via Aklavik post office, et enpostat en Great Britain dum november, estu liverit en te postal area most novo en mond. Te post kristonaskal por telal nord, konsistind mooste de epistles et parseles dal Scotland et London livu Edmonhton, Alberta tisemane por Aklavik epi te delta de flum Mackenzie. Te safario esti 1,800 milias. El esti factit da spanes a kan (dog teams) tra glaci stogal, blizardes (nivegoza tempesto) et blovnivones grand. Herschel Island esti 200 milias preter Aklavik. Ta part de poston por Herschel Island estu receptit da Inspektist Calkins de Canadian Mounted Police (polic a kabal) te cef de post, de region polal.

Pent, siks, od plus kanes estu harnesadit ad sledes, longo et streit, tegat per fures et per tarpaulin, ut protektio kontra temp. Epi te trak solitar, kwe sekui te meanderio de te flumes Athabasca, Slave, et Mackenzie, te postistes safaru (will travel) distios tam longo ka dal London ad Edinburgh sin komio un hom epi weg. Drovistes (the drivers) ne habi spati por kaimas (tents) od ali trostones. Dum nokto te viros meti cirk a blankwiles, et bivaki sub postsakes kwe esti akwaespruv, et habind te kanes cirk a les por varmita.

Pent (5) rispanes de kanes estu ustit dia Fort McMurray et Aklavik; et Inspektist Calkins vartu ye rand de Arktik ko span fresk, por portir te poston tra te nekst 150 milias.

Kwamke ye omni milia inter lokes solitar sin refugio, mortio en mult formes enbosku kontinue por te postistes. Ne estabi mankio de voluntores por ti safario danjeroz. Om intendi ke komercistes, et resedores ye litor de Ocean Artik habu min kaus plendir von tempor de arivio de seyo poston kristonaskal ka te stodorandancs ki plendi si seyo postnemio esti tard en matin.
