Cavoretto, Turin Italy

Dear Sir:-

I am enclosing you herewith
copy of a letter I recently sent
to Brit. Astronauts Association
which is self explanatory.

I am wondering whether you
could help the Smithsonian
Institution in this matter par-
ticularly as regards securing
a photograph of Abbe Schleyer.

The biographical data concerning
him which I have included in
the article is taken from the
obituary published in your
"Discussiones." at the time of his
death.

Anything you can do

to aid in this matter will
be greatly appreciated both
by the Smithsonian Institution
and myself.

Very truly yours
J. G. Cottrell
