

Prof. Peano's
club interest

31st July 1912

Dear Mr. Moore,

Thank you for your
interesting note. I suppose that
ad would be the auxiliary for
the Infinitive, if one were used.
Me vole ad scribe, or (abbreviated)
Me vole scribe. [I see however
that Prof. Peano used de in
"es necesse de publica"].

I suggest un for uno sometimes,
and lo for illo.

Faithfully
James S. Allen

Vole ad scribe

(ad S^{re} Peano)

Nota de Meysmans. - Usus
de praepositione de, et es
facto ab S^{re} Peano, ante verbo,
es quasi semper inutile. Isto
usus es Romanismus non plus
typicibile ^{nee} per internationalitate,
^{nee} aut per Latino, nee per logica.
Invenio.

Es necesse de fac =

fac es necesse =

es necesse fac.

Pro evita criticas de Latinistas
et Germanos, es utile evita
illo usus.
