

DEPARTMENT OF THE INTERIOR

BUREAU OF MINES

WASHINGTON

IN ANSWERING REFER TO

No.

Forano July 4/19

Dear Prof. Pearson:

This is the little article describing our work on helium of which I spoke to you.

The first part happens to be incidentally concerned with older work of mine which has nothing to do with the subject of Helium but you will find I have marked where its discussion of the letter begins so you can easily find that part.

Trusting that it may prove of interest to you, I am with best wishes & kindest regards,

Yours sincerely
F. G. Cottrell
